

FLS 88 Box

2/24/72

Dear Sirs,

Couldn't you please stop producing tobacco and cigarettes?

All the land you use could be used for growing crops for the starving people who only get one ^{small} unbalanced meal a day. If you did, so many people would help contribute their old cigarette money for it. The smoke from millions of people's cigarettes pollute the air. You can help stop people from killing themselves and from polluting the air worse.

Please! If you couldn't, why?

Thank You Very Much,

Love,

Elb

P.S. I used to smoke but I quit and am more so happy. Please send me your reply if you have one.
Thank You
