To Whom it May Concern

Sorry to have to write to you again.
this time I am practically on bedded
knee begging you to hear me, since I
am now 78 years old, and trying to
live on my social security (which I
appreciate) but \$93.20 doesn't go to far
with rent, food etc., to pay for.

The thousands of dollars which
your company spends on advertising
could surely be divided among
others like me ^{who} have lost their
extra support. Each time I write you
I repeat in my opinion my husband's
lung cancer was caused by smoking
