Dear Bob:

The purpose of this letter is to provide you direction in the development of 3 sets of art and mechanicals (7" x 10" image, 8 3/4" x 11 3/4" trim size) for the NANTUCKET "Scenery" campaign.

Development work should proceed according to the following outline and use the NANTUCKET comp (previously sent to you on 10/30/76) as a reference.

1. Advertising Copy - ad copy should read as follows:

Headline: "Come to NANTUCKET, Friend. There's Less Pollution Here."

Body Copy: NANTUCKET's patented anti-pollution filter soaks up irritating fumes in the smoke--and beefs up flavor to boot.

First time you light up a NANTUCKET you will wonder if the filter is working. It is.

NANTUCKET knocks the pollution out of taste. You get flavor you can feel in a cigarette you can trust.

It is my understanding that the first paragraph will be in bold type and that the "tar" and nicotine figures under the packs will be hyped for easy identification. Headline and copy for all 3 ads will be identical.

2. Photography - Background photography will be that used for NANTUCKET's original "Come to" campaign.
