Subject: Island Promotion Commitment Timetable

The attached commitment timetable represents the best estimates of commitments to the Island Promotion and the cost of cancellation at any specific point in time.

Major costs begin occurring the week of 1/14 (\$225M) and are increased significantly (\$910M) the week of 1/21 when media closing and major POP production costs are incurred.

The final cancellation date is 2/1 for production materials closing on monthlies and POP production is completed. At that point, the promotion is irretrievably committed and the cost is \$1.1MM.

If you have any questions or comments, please let me know.
